Rockabye

As you go to bed
I'll sing you this song
As you lay down your head
I'll read you a story
And help count the sheep
And stay by your side
til you fall asleep

Rockabye

As you lay down
to sleep with your blanket,
your bear -- your clown
Baby don't cry
As I turn out the light
And may you dream peacefully
All through the night

Rockabye

Your day is done
The stars and the moon
take the place of the sun
And I'll be here with you,
when you arise
And you'll see my smile
When you open your eyes
